RISK MANAGEMENT

BETTER RISK APPETITE?

The world is changing rapidly and with change comes uncertainty and risk, making it increasingly difficult to be prepared for any eventuality. Well-managed companies are more adept at keeping an eye on emerging threats and opportunities. In most cases, this ability to "scan the horizon" is effectively derived from strong governance, risk management and internal controls.

To succeed in the development of these new challenges, **BDO in Costa Rica** combines its methodologies with technology, through architectures that ensure the reliability, flexibility and scalability of financial models, as well as the information generated by compliance and risk management processes.

Our specialties

- ▶ Corporate Governance
- ▶ Risk Management
- ▶ Internal Audit
- ▶ Compliance Management
- ▶ Forensic Audit
- ▶ SOX Audit
- ▶ Support or accompaniment in the design of policy, process and/or controls
